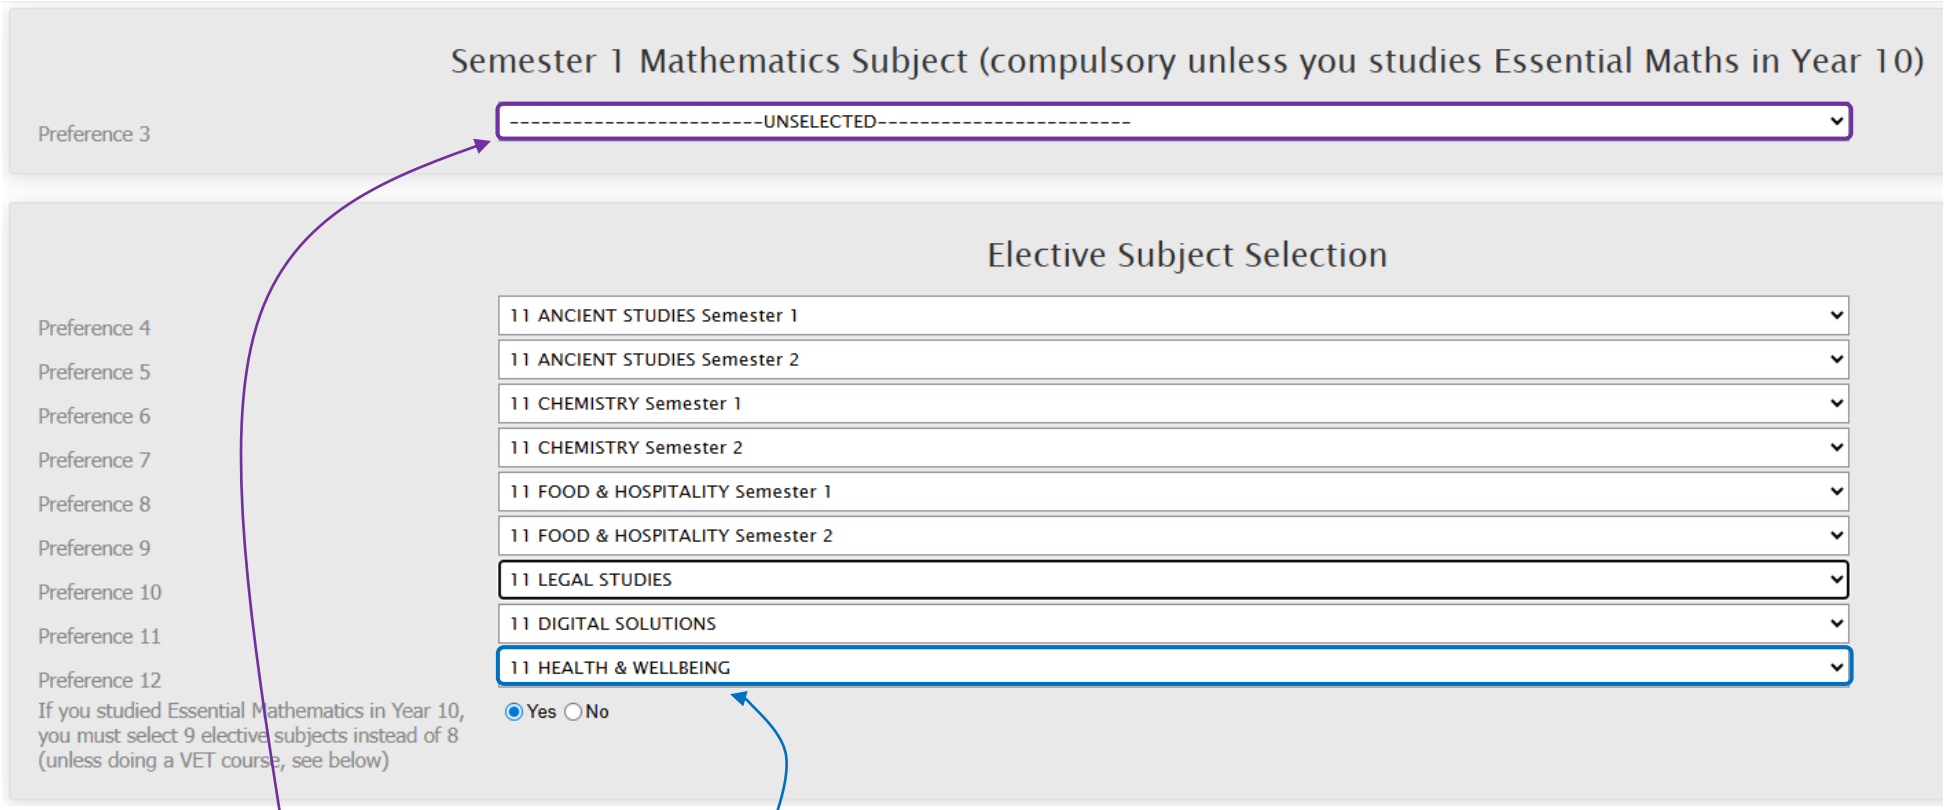
Subject Selection Information for Year 10 Students

For students who will be completing Year 10 Essential Maths and do not need to select a Maths subject in Year 11

If you have studied Year 10 Essential Mathematics this year, you do NOT need to select a Mathematics subject in Year 11. Make sure you do the following in the subject selection portal



If you did Year 10 Essential Maths, leave this preference line BLANK

You must then select an additional elective on preference line 12 here, and make sure you tick the "Yes"

Note, if you are also doing a **full year VET course**, then you will leave preference line 12 blank and select the study line for preference 13 (see the other information form for VET students)

This will be checked by the course counsellor at your Subject Selection Interview
